Your New Ride to Fitness

Introducing the first mountain bike worthy of the Men's Fitness name. Made by the world's most innovative bike designer, Prodeco Technologies, the bike features a Magnesium Alloy Suspension Fork, high performance braking system, Shimano Deore derailleur and heavy duty tires with triple wall rims. It also has a patented collapsible frame that lets you fold the bike in half for easy transportation, whether you're headed to the mountains or the city streets.

We're so sure this is the best mountain bike you'll ever ride that we're backing it with an industry best 2 year warranty.

And, as a Men's Fitness reader, your new ride to fitness comes at a price you won't believe. So, visit **MensFitnessBike.com** today and check out all the details.

Men's Fitness

Patented folding frame means easy storage and no need for a bike rack.

BUILT IN THE USA
